MONEY, STOCKS AND BONDS.

The Bearish Element Begins Its Innings-The Whole List Declines Slightly. NEW YORK, Sept. 16.—Money on call was easy at 312@412 per cent.; the last loan being made at 4, closing offered at 4.

Prime mercantile paper, 5@7 per cent. Sterling exchange was quiet but steady at \$4.8412 for sixty-day bills and \$4.8814 for

The total sales of stocks to-day were 185,-213 shares, including the following: Atchison, 5,660; Delaware, Lackawanna & Western, 7,417; Erie, 8,450; Lake Shore, 3,925; Louisville & Nashville, 11,760; Missouri Pacific, 4,175; Northwestern, 3,685; Northern Pacific, 3,916; Northern Pacific preferred,

21,915. Reading, 13,380; St. Paul, 14,165; Union Pacific, 4,480.

The stock market to-day was weak and declining from opening to close, and tonight everything is lower, though the important concessions are not specially numerous. The action of the other St. Paul lines in meeting promptly the cut by the Chicago, Burlington & Northern, together with the assertions from Chicago that the cuts would go further, created a decidedly bearish feeling among the professional element, and, in the absence of buying for the long account. vigorons efforts were made to get the list down. The selling apparently began in London, as the figures from that center were materially lower this morning, though there was no selling of importance for foreign account in this market. First prices here were from 4 to 3 per cent. lower than Saturday's closing figures, and the pressure upon the grangers was pretty severe in the early trading. The impression made upon the prices of those shares, however, was in no cases measured by more than a fraction. There was considerable strength in Louisville & Nashville and New England, the prospects of an early completion of the connection with the Norfolk & Western helping the former. The impression made upon the general list was fractional only in the forenoon, but later the closing of the Northern Pacific books this evening led to the selling of that stock, and a material decline followed, while sales were made for cash at small advance in the regular way. A rumor was circulated that Sugar Trust had a bonded indebtedness of \$16,000,000 ahead of the stock, and this led to a sharp drop of 3 per cent. in that, though most of was afterward recovered. Transcontinental, while not active, was weak, in sympathy with Northern Pacific, and is the only one of the few stocks showing a material decline this evening. The later decline was sympathized in by the general list to a greater extent than the earlier one, and the weakness became more pronounced as the day wore along. Norfolk & Western was a marked exception to the rule, being helped by the same influence which advanced Lou-isville & Nashville. New England was advanced on rumors that the meeting of the New Haven, to-day, would result in some scheme by which New England would be a gainer. There was further manipulation of Phoenix mining, and it rose from 65 to 77, and fell back to the opening price. The close was quiet and

the day. The entire list is lower, but the losses are generally fractional, while Oregon Transcontinental lost 158; Canada Southern and Northern Pacific preferred, Railroad bonds were duller than they have been for many days, the sales of all issues aggregating only \$645,000, while the trading was devoid of special feature of any kind. No decided tone marked the dealings, and the final changes in most

weak, generally at the lowest prices of

cases are insignificant. Government bonds were dull and steady. State bonds were dull and steady. Clos-

TRADING AT CHICAGO.

The Ups and Downs of the Market, with the Range in Prices of Leading Articles CHICAGO, Sept. 16.—The wheat market was rather dull to-day, and for a greater portion of the session the feeling was weak. Bear sentiment seemed to predominate toward the close, in fact, and as a result of the day's operations a net loss in futures of 4@34c was established. In the trading pit the crowd felt pretty friendly to wheat at the opening, and in the early dealings prices moved up 1800 4c. The feeling of strength soon gave way to one of decided weakness, and for the remainder of the session the "bears" were on top. That there was not a pretty sharp break in values was probably due to the narrowness of the market, and to the very good buying by a prominent local operator when the market was dragging around the bottom. This same operator was the largest seller to-day of year wheat, it was said, on the floor. The Northwest sold considerable May here, and news from that part of the country was less bullish. New York gossip was bearish, but operators there were said to be conservatively inclined, owing to the poor grading of the receipts in the West. In corn a good trade was witnessed and the feeling prevailing was but a continuation of that developed the latter part of last week, transactions being at still lower prices. The speculative market opened heavy at Saturday's closing prices, and under free offerings declined \$\frac{1}{2}\omega\$ 5sc, the new crop futures showing the greatest weakness. The market then ruled quiet and irregular, closing with the near futures \$\frac{1}{4}\omega\$ 3sc and the distant deliveries \$\frac{3}{8}\omega\$ \$\frac{1}{2}\colone{1}\$ lower than Saturday. The near futures in oats were quiet and easier. May was active, weaker, and prices declined 4c, "Longs" were free sellers. Considerable short selling was also indulged in, and the feeling most of the session was heavy. Rather more strength was developed in pork, and prices ruled higher, especially for the near deliveries. "Shorts" bought a few lots, and, as the offerings were small, they were com-pelled to advance their views 25@35c. De-ferred deliveries were stronger, and prices

higher, and the market closed compara-

The visible supply of grain according to the Chicago Board of Trade is as follows: Wheat, 15,698,000 bu, increase 1,485,000 bu; corn, 12,892,000 bu, increase 725,000 bu; oats, 5,915,000 bu, decrease 98,000 bu; rye, 1,074,-000 bu, increase 36,000 bu; barley, 423,000 bu, increase 167,000 bn. The Foreign Grain Trade.

LONDON, Sept. 16.—The Mark Lane Express, in its weekly review of the British grain trade, says: The deliveries of newerop wheat are largely increasing. Some sells as low as 29s per 480 pounds. The sales of English wheat during the past week were 55,989 quarters at 30s 2d, against 15,655 quarters at 38s 1d during the corresponding week last year. The large difference in the price between now and a year ago is partly due to the fact that wheat offered at this time twelve months ago was old grain of the fine crop of 1887. Foreign wheat is 6d lower. Flour shows a fractional decline. Corn is weak. The prices of beans and peas are in buyers' favor. Rye is 6d lower. At to-day's market English new wheats sold at an average of 32s per quarter, and old at 30s.

Foreigh wheat was neglected. Flour was firmer. Barley was 6d cheaper. There was a further fall of 3d in rve. La Plata corn was down 9d@1s. Oats were firm. Calcutta linseed was 9d lower.

Useful Recipes.

Plum Jelly.—A very rich jelly is made from any of the more acid plums, in pre-cisely the same way, except that the fruit need only be carefully wiped. If the pulp is not to be used after expressing the juice,

it may be thoroughly squeezed in a flannel jelly bag. As a rule, the lighter jellies are made clear and beautiful when the fruit is

Peach Preserves.—Choose fruit having a

rather firm flesh; peel, removes the stones, put the halves into a porcelain-line preserving-kettle in layers, with an equal amount of sugar; the next morning set the kettle over the fire, and boil and skim until the syrup is clear and the fruit begins to look transparent, but do not allow it to break. Then put up in cans and seal.

and press moderately, putting the juice through a cloth strainer; add a pound of sugar to each pint, and boil about fifteen

pounds of sugar to seven pounds of pulp, with spices to taste. This is an excellent way to utilize plums, and grapes also. Some authorities recommond heating the sugar separately while the fruit is coming

to a boil, and then adding the hot sugar, but I have tried both methods many times

without perceiving any difference in the

A Tennessee farmer sold the proceeds of twenty-six sheep for \$230, or nearly \$9 per sheep. Of this sum only \$55 was from wool, the mutton and lamb bringing \$175. This shows that sheep will pay without producing a single pound of wool, and that the farmers should turn their attention to the mutton breed rather than to merinos. The

INDIANAPOLIS MARKETS.

Trade Moderately Active with No Fluctuations in Values of Importance.

INDIANAPOLIS, Sept. 16.

In most departments to-day trade started in rather slow; possibly the rain in the morning had something to do with the dullness. Inquiry at the wholesale houses showed that prices all along the line ruled firm; especially was this true of dry goods and groceries. The New York Commercial Bulletin of Saturday says of the grocery market: "The coffee men have succeeded not only in placing a fair quantity of stock, but added fractionally to values, and the gain seems to have good healthy support, with, however, some danger that the speculative element is preparing to overstrain matters. Sugars, too, seem to be working into better shape, for while a decline in price simply realized the expectations of all well-posted and unbiased operators, it looks as though a level had been struck at which buyers are willing to take hold with greater freedom. Molasses is a little slow as yet, but syrups secure fair attention at steady rates, and there is an average movement of rice in natural channels. Spices have been disturbed by adverse foreign news, and teas continued to drag along under what is getting to be a somewhat remarkable standing off ability on the part of consumers." In the produce markets there was fair activity for Monday. The cooler weather will admit of the grocers stocking up more freely in fruits and vegetables. In prices there were no changes. tables. In prices there were no changes. Poultry was slightly firmer in tone. Eggs firm and scarce. Butter in good supply and unchanged in price. The leather market carries a decidedly firmer tone, but no change in prices has been made as yet. GRAIN.

The local market opened up rather flat; the attendance on 'Change was small and the bidding spiritless. For wheat there is some demand for milling purposes, and there is a fair demand for mixed grades of corn. Oats ruled quiet. Prices

to-day ruled as follows: Wheat—No. 2 red, 75½ \$\alpha\$76c; No. 3 red, 71 \$\alpha\$73c; rejected, 64c for poor, up to 69\$\alpha\$70c for choice samples, the ruling figures being 66\$\alpha\$67c; September, 75c; October, 75c.

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party, the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Jour-NAL gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known Iltérary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it apaper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and JOURNAL.

Crab Apple Jelly.—Wipe the fruit, picking it over carefully, and cut out the blossom end with a sharp-pointed knife, as this is sometimes thought to give an acid flavor to the jelly. Add a little water, a half-pint to each quart of the fruit, well shaken down, and boil gently until the fruit is thoroughly cooked through. Drain and press moderately, putting the inice One Dollar per year, has a circulation extending to every county in Indiana and adjacent territory. A few of the pits cracked and the kernels tied in a muslin bag and added to the fruit will give a higher flavor. Lay a piece of muslin over a large strainer, put in the fruit, and let it drain without pressing. To each pint of juice allow a pound of sugar; heat quickly and let it boil moderately fast for about twenty minutes, trying a little by cooling toward the end, and take up promptly when it jellies. The fruit will still make an excellent spiced jam by boiling with a pint of sharp vinegar and three or four pounds of sugar to seven pounds of pulp. hold topics. It is complete in every de-
